REASONS YOU NEED DICKINU

2% REFLECTION

01

The longer you hold DickINU, the more you earn. Why invest 1 CRO into a rewards token only to receive .02 CRO back in rewards as the price crashes? With a 2% reflection, you can relax while you watch the DickINU grow.

02

3% LIQUIDITY

Having DickINU is really only enjoyable with some liquidity. Keeping that liquidity flowing is key in helping safeguard investors from dumps and providing extra stability for the long haul.

03

5% MARKETING

Our team will spread awareness and the excitement that can only come from getting some DickINU, so you can in turn tell your friends, family and neighbors of the joy experienced by having some DickINU as well.

04

50% BURN

What's better than getting some DickINU? Experiencing the burn. At launch, 50% of the 1 billion available tokens will undergo what we call the Dick-INU burn. This will keep upward pressure on the price and market capitalization of DICK-INU.

05

ANTI-BOT PROTECTION

Protection is a must when getting some DickINU. No bots will stand in the way of a good time with an automated 30-second cool down between buys, and a maximum single buy restriction of .3% of the total supply.

RICHARD DOWN

Head of DickINU, Dev, Legend

The ladies call him a legend, the guys, an inspiration. But it was after the last successful project that he realized he needed to bring his idea of DickINU to fruition. As the sole developer, he's worked hard creating a team that will help bring his DickINU to the world.

THANK YOU!
